

The fitting below is a Heavy Duty Industrial pendant complete with ceramic ES lampholder suitable for all types of ES and LED Globes. The unit is constructed from heavy gauge 2.0mm sheet steel which has been hand rolled and brazed. The finish is a galvanized dip. In keeping with the industrial format the rod is manufactured from 1 inch galvanized water pipe. Total weight of the fitting is 12 kg. The hand drilled holes allow for some sideways light spillage when lit.

Elettra Products are Australian owned and manufactured.
