

HORIZON PENDANT

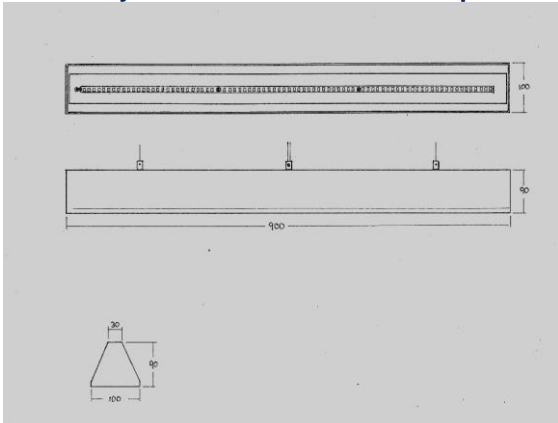

A simple streamlined pendant The Linear Horizon is hand manufactured from lifetime copper and brass or available in steel in our extensive range of standard colours. It is fitted with quality LED strip that is both dimmable and of high lumen output. Because it is hand manufactured there is a large range of size and material options available as well as our extensive range of specialized finishes for both brass and copper lending itself to personal bespoke requirements. This pendant will suit both domestic and commercial applications and comes standard with 1m flex and wire suspension.

Elettra Products are Australian owned and manufactured.
