

METRO 15 PENDANT

The Metro pendant is a stylish modern pendant available in a range of lengths. Whether displayed as a cluster format or as a singular fitting its clean simple lines have a dramatic impact in both commercial and domestic applications. The Metro pendant is available in LED format as below or in most of the standard light sources including E27, GU10 and Low Voltage. It can be manufactured to retro fit many currently available LED down lights where specific luminaire output is required. Available in the full range of our standard colours and finishes.

Elettra Products are Australian owned and manufactured.
