

We are regularly adding and changing our product ranges and are currently in the process of developing LED versions of our more popular products. This quick message gives some of our more recent changes and additions which you may not be aware of and can be viewed in more detail on our website at [www.elettra.com.au](http://www.elettra.com.au)

### VECTOR & MINI VECTOR RANGE

Our full range of Vectors and mini vectors are now available in LED versions. They come with integrated drivers offering a warm light and are 50% dimmable. More information on the product as well as spec sheets on the LED is available from our website.

### ORBIT 750 / 600

These new additions of large half dome pendants are available in our full range of colours as well as brushed aluminium. They are also available on a made to order basis in copper as shown here in the picture. The standard light source is a single E27 lamp holder but multi light hubs and other light sources can be fitted if required.

### SLEEK WALL LIGHT

This 18W Compact fluorescent wall up light has been designed with no visible means of fixing when mounted at above eye level. It comes with a white acrylic diffuser and is available in all of our standard powder coat finishes as well as in brushed aluminium and clear coated.

### NEW ES VERSIONS

Both the Studio Long and Cubic Grande are available with E27 lamp holder to accommodate low energy globes. The Studio Long is IP24 and is constructed of marine grade Stainless. The Cubic Grand is an internal fitting with shields available in Stainless, copper or our full range of powder coat colours. It has been designed with no visible means of fixing and is also available in a 13W LED format.
