

## COPPER POT HOLDER

This pot holder was manufactured with steel, copper and copper plated components as bespoke kitchen items. They have been suspended using copper plated chain from hand spun copper canopies. The hooks and mesh have all been copper plated as have the fasteners to complete the assembly of the units. Obviously the frames were painted to meet specific requirements of the customers.

Elettra Products are Australian owned and manufactured.

*Elettra manufactures and finishes products on site and maintains a large range of components and manufacturing processes aligning the business to bespoke manufacture and design. We reserve the right to change or modify designs without notice.*
